SROTOSHWINI TRUST EVENT UPDATE

INFORMAL SCHOOL INAUGURATION

Pathshala Informal School was inaugurated on the Foundation day of Pathshala, May 9, 2022. We had a cultural programme, inauguration of the building, awards ceremony and the culmination of our Pollution & Climate Change unit under our PBL approach to teaching and learning.

Our informal school will comprise of 5 Learning Levels (without any grades). Once they complete the 5 levels in all subjects, the children will transition to NIOS board's eighth grade curriculum and take their 10th & 12th grade exams under the formal education system. This is a hybrid approach to make sure the fundamentals are strong in the early years while following the 10+2 norms to be able to apply for higher education in all fields in colleges across the country.

SPOTLIGHT SPORTS INITIATIVE

Both our Boys' and Girls' team participated in local and out of state football tournaments. Our girls won the Shri K K Vitthani Memorial Football Tournament organised by Baroda Football Academy in open category. Hasina received player of the match, Jyoti received Best Player of the tournament, Tejal received Best Goalkeeper of the tournament. The Girls' team won the Runners Up trophy in the BFA cup organised in Goa. Jyoti and Dinesh have received Player of the Tournament and Man of the match respectively. SUCCESS STORIES

Children's Spotlight

POONAM & SEJAL, our Class XII students are both gifted artists. They're active members of the Maindak X Churni initiative. They've recently started teaching the Level 1 Art class. It is wonderful to see our children taking initiative to give back to the system they've been a part of.

AJAY secure scholarship @ KJIT

Ajay, our eldest who is studying Mechanical Engineering (Diploma) @ KJIT has got his entire fees of 20,000 as scholarship. This has been possible purely because of his hardwork, focus and diligence to do well in these crucial years so that he can ultimately accomplish his dreams of becoming a Loco Pilot.

Hands-on Learning approach

The hands-on approach to learning has been very effective for our children. They are not only able to learn through hands-on activities but express their understanding through different forms of expression. The process tries to preserve as much creativity as possible. Along with PBL, our activities at Skill Development Center are teaching them complex scientific and mathematical concepts by performing experiments and presenting their results. Practical workshops held by Koshish Milap Trust that taught children how to assemble a circuit from a circuit diagram are life lessons that will help them in the future. All our teaching/learning initiatives are hands-on in nature.
